Mr. Laurence Ashley
4350 150th Avenue NE
Redmond, WA 98052

Dear Mr. Ashley:

Your letter transmitting the report of your April 19 inspection at our Pier 91 facility asked for comments on two issues. The first issue was the amount estimated for closure costs.

Since we are due to update the closure estimate and trust fund in July of this year, we would like to reassess the amount as part of that process. We have copies of the closure guidelines and will use them in our evaluation. We will then send you a copy of the revised estimate when this process is complete. Please advise us if this time frame is not acceptable.

The second issue regarding records requirements I assume specifically refers to the absence of some of the waste analyses results at the Pier 91 facility. The plant manager has informed me that he has completed updating the records there by obtaining missing past analytical results from the laboratory and placing them on file at the Pier. This should bring us into compliance with that issue.

If you have any questions, please contact me at 767-0350.

Sincerely,

Dennis Stefani
